Dear Doctor,

*I have a small quality oriented Denial Laboratory specializing in all Crown and Bridge, PFM's, Porcelain, and Veneers. I am looking for another accomplished doctor to work with. I can offer you precision prosthetics with natural aesthetics, comfortable fit, and excellent function that will seat in very little time and with little effort effort.*

*The doctors, and their patients I am currently working with are very happy with my work. I hope you might consider giving me a chance to talk with you at anu time to discuss your needs, likes and/or dislikes. I can create crowns that will meet all of your needs and expectations.*

Thank You,

John Beyers
